

El Mes de Mi Cumpleaños

**Make a calendar page for the month of your birthday in Spanish.
Remember to be creative!**

What's included on your calendar page:

- A. The name of the month in Spanish with correct spelling/capitalization
- B. The days of the week in Spanish (Remember that your calendar must be Spanish-style and start with the correct day of the week!)
- C. A numeral written on each day of the month with the number spelled out below it
- D. Your birthday labeled in Spanish
- E. A couple pictures/drawings to show what you like to do in your birthday month
- F. A sentence telling what season your birthday is in and telling what the weather is normally like in your birthday month. You need to use at least two different weather expressions.

Spelling and grammar are very important!

Please make sure you check your Spanish over carefully before you turn your project in.
